

Profile of Company

"Every step of water is precious;
Please save it for Tomorrow"

Company Profile

- The company has more than 20 years of experience in design and manufacturing of industrial process cooling, systems and Indu. chillers, water cooler, dehumidifiers, air - dryers and vertical refrigerators.
- They are the leading manufacturer of advance techno cooling equipment and systems for various applications.
- The products include various types of chillers, central chilling systems, Dehumidifiers, Air dryers, Water Coolers, Vertical & under Counter Refrigerators as well as system component like pump storage tanks, temperature controllers etc.
- The range of chillers cover from - 1 TR to 150 TR.
- The company serves to a very wide variety of industries for different applications. They can provide heat transfer equipment industries.
- ISO 9001:2008 certified company.

Products

- Water Coolers
- Industrial Water Chiller
- Centralized chillers
- Refrigerated Air dryers
- Heat exchangers
- Vertical refrigerators
- Pump & storage tank
- Dehumidifiers
- Temperature controllers

Key Strengths

- Has big & well equipped manufacturing - facility having very infrastructure.
- Company's experienced, design expert - teams work together to manufacture superior equipment for clients who require high performance and lower coasts.

Clients

The company serves to many OEMs clients in various sectors such as;

- Electro Plating
- Induction melting
- HVAC
- Machine tools
- Laser cutting
- Heat treatment
- Optical coating
- Plastics
- Printing
- Rubbers
- Thermal spray
- Robotic welding
- Electronics
- Food Processing
- Anodizing
- Chemicals
- Laser welding
- Investment Casting

Engineering Capabilities

- Design
- Engineering
- Manufacturing
- Assembly
- Testing
- Quality Assurance
- Timely Delivery
